

# GBU

## Concordia Language Villages

### German Language and Culture Experiences for All Ages

Get connected to your past. German-Americans are the single largest heritage group in the United States. You'll learn words, phrases and the history and traditions of German-speaking people as you immerse yourself in a fun, culturally authentic environment.

From the moment you get your German "passport" and select your German name, you'll enjoy every minute of this experience. New games, new foods, new friends and tons of care and attention from knowledgeable staff make learning German an experience you'll treasure for a lifetime.

Each German program has its own unique daily schedule, catered to the ages and interests of the participants, the time of year and the length of the program. The programs provide the opportunity for children and adults to become immersed in the German culture through activities, language and foods.
